

## Door sign

## Brainstorming summary

Make "meetup names" and "the logo" obvious. Two names i know of are 'Code for SF Civic hack night' and 'Tech for Good'...any other names we use? ( perhaps [@jesse](#) would know? ) It would be important to display the names clearly, if only two names, it might be worth trying to display both.

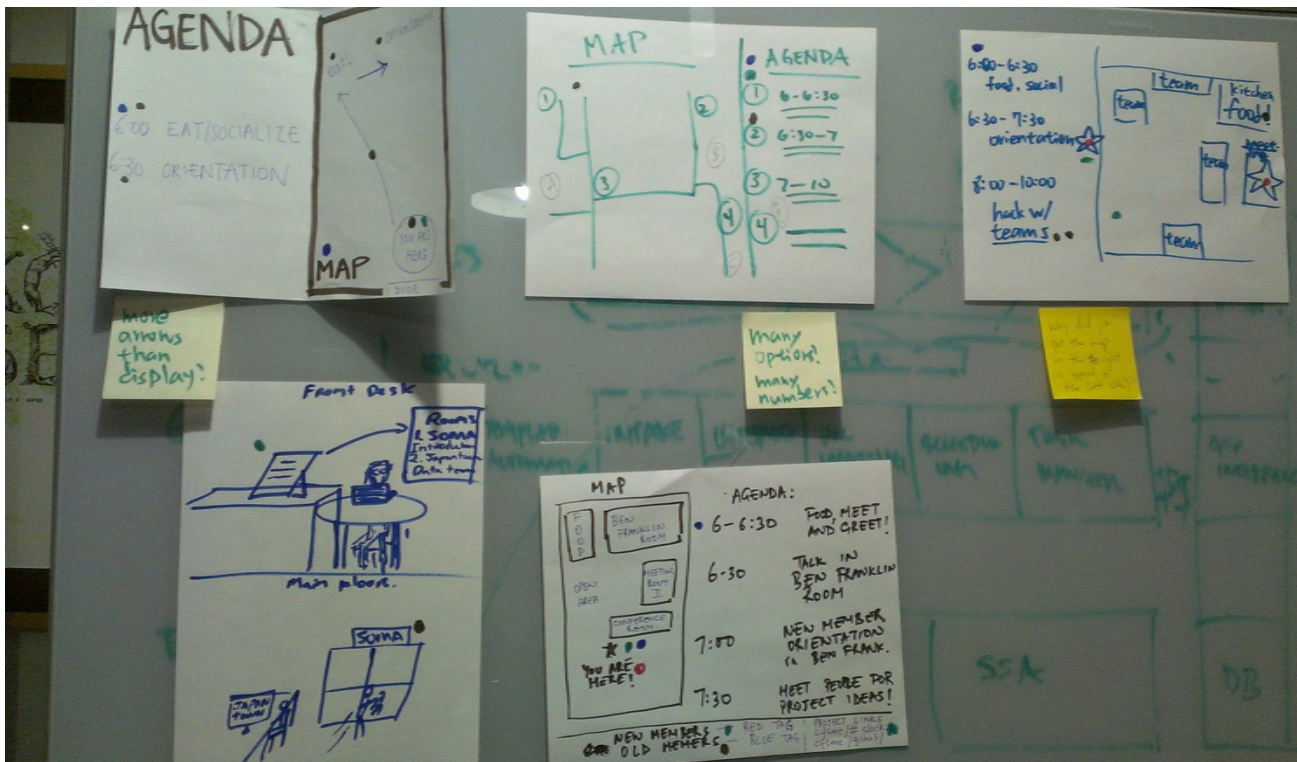

Meetup time is important, possibly also date

BIG arrows clearly showing which button to press on the door

Instruct people to wait for the soft buzz -> then PUSH the door.

'welcome' on top(edited)

## Floor map + agenda sign

## Brainstorming summary

Clearly label 'Agenda' and 'Map'

'You are here' on the map

Time table for different events on agenda

'Numbering system' on the map  
might be better than 'arrow  
system' or 'text system'...worth  
experimenting

A sign on the meeting room,  
corresponding with the name  
we use for the meeting room on  
the map (i think just 'meeting  
room' is good enough for new  
members)

Links at the bottom. Explanation of different colors of stickers + badges at the bottom. (worth experimenting )(edited)
